How Well Funded Is Your Plan?

The law requires the Plan’s administrator to explain how well the Plan is funded, using a measure called the “funded percentage.” The funded percentage is calculated by dividing Plan assets by Plan liabilities. In general, the higher the percentage, the better funded the plan. The chart below shows the Plan’s funded percentage for the Plan Year and the two preceding plan years. It also lists the value of the Plan’s assets and liabilities for those years.

Funded Percentage			
	2024	2023	2022
Valuation Date	June 1, 2024	June 1, 2023	June 1, 2022
Funded Percentage	88%	87%	88%
Value of Assets	\$3,352,807,875	\$3,237,276,363	\$3,165,047,084
Value of Liabilities	\$3,833,250,738	\$3,712,632,369	\$3,601,644,796

Year-End Fair Market Value of Assets

To provide further insight into the Plan’s financial position, the chart below shows the fair market value of the Plan’s assets on the last day of the Plan Year and each of the two preceding plan years as compared to the actuarial value of the Plan’s assets on June 1.

- **Actuarial values (shown in the chart above)** account for market fluctuations over time. Unlike market values, actuarial values do not change daily with stock or market shifts.
- **Market values (shown in the chart below)** fluctuate based on investment performance, providing a more immediate snapshot of the plan’s funding status.

	May 31, 2025	May 31, 2024	May 31, 2023
Fair Market Value of Assets	\$3,522,493,587*	\$3,253,499,435	\$2,943,114,053

* 05/31/2025 audited results are not available at this time. The value listed above represents the Plan’s best estimate of assets.

Endangered, Critical, or Critical and Declining Status

Under federal pension law, a plan’s funding status determines the steps a plan must take to strengthen its finances and continue paying benefits:

- **Endangered:** The plan’s funded percentage drops below 80 percent. The plan’s trustees must adopt a funding improvement plan.
- **Critical:** The plan’s funded percentage falls below 65 percent or meets other financial distress criteria. The plan’s trustees must implement a rehabilitation plan.
- **Critical and Declining:** A plan in critical status is also designated as critical and declining if projected to become insolvent – meaning it will no longer have enough assets to pay out benefits – within 15 years (or within 20 years under a special rule). The plan’s trustees must continue to implement the rehabilitation plan. The plan’s sponsor may seek approval to amend the plan, including reducing current and future benefits.

The Plan was not in endangered, critical, or critical and declining status in the Plan Year.
If the Plan is in endangered, critical, or critical and declining status for the plan year ending May 31, 2026, a separate notification of that status has or will be provided.

Funding & Investment Policies

Funding Policy

Every pension plan must establish a funding policy to meet its objectives. The funding policy relates to how much money is needed to pay promised benefits. The Plan's funding policy is to fund the Plan through a combination of contributions received from contributing employers and investment income generated by the Plan's investments. The Plan's funding policy includes an assumption that the money contributed into the Plan by participating employers, once invested, will have an average annual investment return of 7.125% net of fees. The funding level is designed to comply with requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code. These requirements include minimum funding levels and also include maximum limits on the contributions that may be deducted by employers for federal income tax purposes. The Board of Trustees creates and implements the funding policy and monitors the funding level with the assistance of the Plan's enrolled actuary and the Plan's investment consultant.

Investment Policy

Once money is contributed to the Plan, the money is invested by Plan officials called fiduciaries. Specific investments are made in accordance with the Plan's Statement of Investment Objectives and Guidelines (investment policy). Generally speaking, an investment policy is a written statement that provides the fiduciaries who are responsible for Plan investments with guidelines or general instructions concerning various types or categories of investment management decisions. The investment policy of the Plan is, generally, to invest assets in a diversified manner among multiple asset classes that are expected over the long term to generate returns that equal or exceed the Plan's actuarial assumed rate of return within acceptable levels of volatility.

As of the end of the Plan Year, the Plan's assets were allocated among the following investment categories as percentages of total assets:

<u>Asset Allocations</u>	<u>Percentage</u>
1. Public equity	46.10%
2. Private equity	8.92%
3. Investment grade debt instruments	22.57%
4. High-yield debt instruments	3.07%
5. Cash and cash equivalents	0.26%
6. Real estate	6.59%
7. Other	12.49%

The average return on assets for the Plan Year was 9.4%. This estimated return is based on the fair market value of assets shown above. The actual return for the Plan Year will not be available until later in 2025 when audited financial statements are available.

Right to Request a Copy of the Annual Report

Pension plans must file an annual report, called the **Form 5500**, with the U.S. Department of Labor. The Form 5500 includes financial and other information about these pension plans.

You can get a copy of your Plan's Form 5500:

- **Online:** Visit www.efast.dol.gov to search for your Plan's Form 5500.
- **By Mail:** Submit a written request to your plan administrator.
- **By Phone:** Call 202-693-8673 to speak with a representative of the U.S. Department of Labor, Employee Benefits Security Administration's Public Disclosure Room.

The Form 5500 does not include personal information, such as your accrued benefits. For details about your accrued benefits, contact your plan administrator.

Summary of Rules Governing Insolvent Plans

Federal law has a number of special rules that apply to financially troubled multiemployer plans that become insolvent, either as ongoing plans or plans terminated by mass withdrawal. The plan administrator is required by law to include a summary of these rules in the annual funding notice.

A plan is insolvent for a plan year if its available financial resources are not sufficient to pay benefits when due for that plan year. An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan's available resources. If such resources are not enough to pay benefits at the level specified by law (see Benefit Payments Guaranteed by PBGC, below), the plan must apply to PBGC for financial assistance. PBGC will loan the plan the amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the plan's financial condition improves.

A plan that becomes insolvent must provide prompt notice of its status to participants and beneficiaries, contributing employers, labor unions representing participants, and PBGC. In addition, participants and beneficiaries also must receive information regarding whether, and how, their benefits will be reduced or affected, including loss of a lump sum option.

Benefit Payments Guaranteed by PBGC

Only vested benefits – those that you've earned and cannot forfeit – are guaranteed.

What PBGC Guarantees

PBGC guarantees "basic benefits" including:

- Pension benefits at normal retirement age
- Most early retirement benefits
- Annuity benefits for survivors of plan participants
- Disability benefits for disabilities that occurred before the earlier of the date the plan terminated or the sponsor's bankruptcy date.

What PBGC Does Not Guarantee

PBGC does not guarantee certain types of benefits, including:

- A participant's pension benefit or benefit increase until it has been part of the plan for 60 full months. Any month in which the multiemployer plan was insolvent or terminated due to mass withdrawal does not count toward this 60-month requirement.
- Any benefits above the normal retirement benefit.
- Disability benefits in non-pay status.
- Non-pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay.

Determining Guarantee Amounts

The maximum benefit PBGC guarantees is set by law. Your Plan is covered by PBGC's multiemployer program. The maximum PBGC guarantee is \$35.75 per month, multiplied by a participant's years of credited service.

PBGC guarantees a monthly benefit based on the plan's monthly benefit accrual rate and your years of credited service. The guarantee is calculated as follows:

1. Take 100 percent of the first \$11 of the Plan's monthly benefit accrual rate.
2. Take 75 percent of the next \$33 of the accrual rate.
3. Add both amounts together.
4. Multiply the total by your years of credited service to determine your guaranteed monthly benefit.

Example 1: Participant with a Monthly \$600 Benefit and 10 Years of Service.

1. Find the accrual rate: $\$600/10 = \60 accrual rate.
2. Apply PBGC formula:
Take 100 percent of the first \$11 = \$11
Take 75 percent of the next \$33 = \$24.75
3. Add the two amounts together: $\$11 + \$24.75 = \$35.75$
4. Multiply by years of credited service: $\$35.75 \times 10 \text{ years} = \357.50

In this example, the participant's guaranteed monthly benefit is \$357.50.

Example 2: Participant with a \$200 Monthly Benefit and 10 Years of Service.

1. Find the accrual rate: $\$200/10 = \20 accrual rate.
2. Apply PBGC formula:
Take 100 percent of the first \$11 = \$11
Take 75 percent of the next \$9 = \$6.75
3. Add the two amounts together: $\$11 + \$6.75 = \$17.75$
4. Multiply by years of credited service: $\$17.75 \times 10 \text{ years} = \177.50

In this example, the participant's guaranteed monthly benefit is \$177.50.
